164986	**Digital 721** Memory module with 1,000 virtual serial numbers

Scope of delivery

- Memory module with 1000 virtual serial numbers

Features

Features

- Memory module with 1,000 virtual serial numbers
- The memory module can be read out once using the programming device and is then unusable. The virtual serial numbers are displayed in the software and can be used
- Virtual serial numbers should always be stored on the memory module of a receiver in addition to real serial numbers. If another hand transmitter is subsequently ordered by the customer, it can be pre-programmed in the office with a virtual serial number and sent to the customer. After pressing the button of the hand transmitter 2 times, it is immediately programmed in the receiver and is then usable.

Use

- For Digital 720 programmer
