NEW!

maveo connect stick

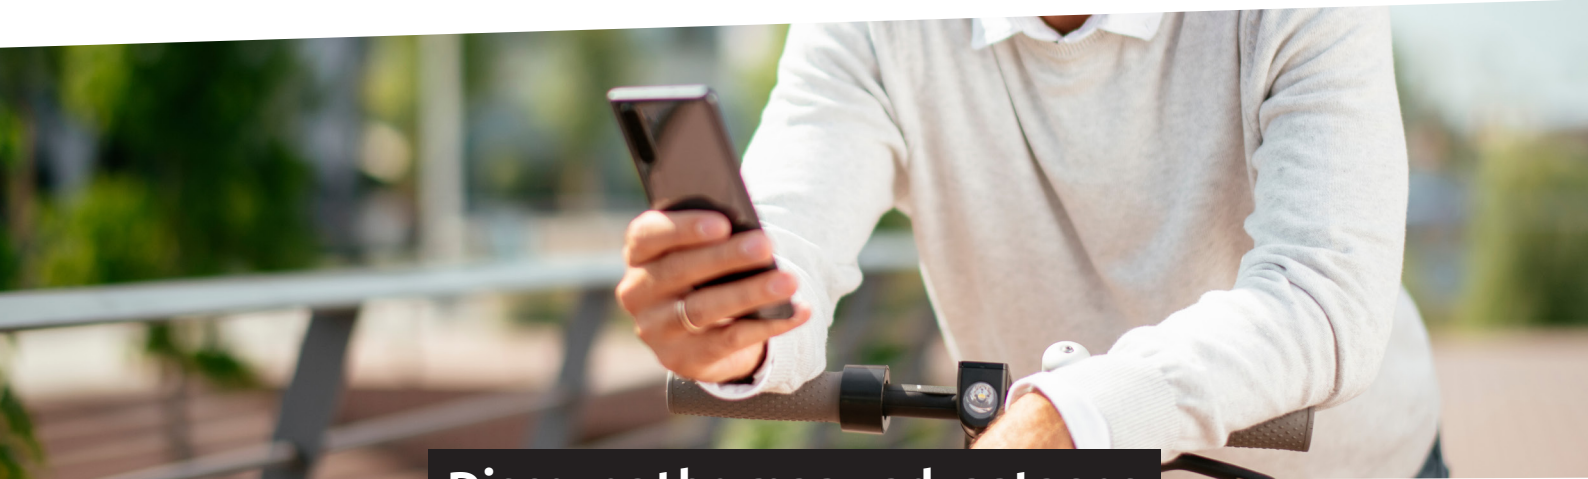

For a good feeling. Anytime, anywhere.

With the maveo connect stick, you've always got an eye and a grip on your garage door or entry gate. **Wherever you are, you can always be sure your garage door is closed and that everything is secure.**

Thanks to the maveo app's gate status indicator and the ability to operate the door while on the road, you've always got **everything under control**. What a **great feeling!**

Installation is child's play: To set up the maveo connect stick, just insert it into the marantec opener — it's all **plug and play!** Then download the **maveo app**. Register, connect, and you're done. All that's necessary is a stable Internet connection in the garage, a smartphone and your "my maveo" account.

Discover the many advantages

World Wide Control
Access from everywhere, including door or gate status. (open/closed)

Push notifications
Get information each time the door or gate moves.

Access management
Grant digital access keys to family, friends, neighbors and craftsmen.

Ventilation position
Discourages mold formation in your garage.¹

Light on and off
Control your opener's light via app.

Self-closing
The door closes automatically after a defined time.² (1/5/15 minutes)

Geofencing
Open your door with a simple confirmation — even faster, as soon as you come home.

Live status
Follow your door or gate's movement with a live animation.

Ask at your dealer!

¹ This function is only available when an interim position is programmed into the drive.

² For the maveo connect stick's full range of safety and functionality, a light barrier, such as the Special 630 is a must (available in specialist shops).
